

Electrical Contracting

GBE Group provides contracting services to domestic, commercial and industrial customers including:

- Authorised Level 2 Service Provider Works
- Switchboard and power upgrades
- Service aerials and private poles
- Electrical contracting installation and repairs
- Compliance testing and reporting
- Emergency lighting
- Test tagging

We provide services to residential, commercial, government and institutional customers ranging from small to large repairs and installations.

Our commercial electrical works include the maintenance, repair and reporting for statutory compliance for emergency lighting, test tagging, RCD testing, switchboard thermal imaging & generator maintenance.

We provide reactive service works and preventative maintenance plans ensuring optimal performance of your equipment. We offer prompt service by experienced technicians and value for money pricing. With over twenty years of continuous operation and experience in the service industry, GBE Group will look after you.

Domestic

GBE Group provides services to residential customers with works ranging from small repairs and installations including safety switches, ceiling fans and smoke detectors through to complete rewires, new installations, repairs and alterations to mains entry points and power supply upgrades.

GBE Group is a Level 2 Service Provider for Ausgrid and we are Category 1, 2, 3 and 4 accredited allowing us to provide metering, point of attachment service aerial and underground service lines.

Commercial

GBE Group provides services to commercial customers including small breakdowns and installation works through to complete renovations, new commercial installations, new switchboards and building automation.

Our commercial electrical works include the maintenance of statutory compliance for emergency lighting, portable appliance testing and tagging, RCD testing, switch board thermal imaging, generator maintenance, and HV switching.

We are licensed and experienced to carry out data and telephone cabling and testing.

Industrial

GBE Group provides services to industrial customers including new installation works, repair and maintenance to all plant and equipment, preventative maintenance and safety inspections on fixed and portable equipment.

We provide technical service and support of process systems and control including the design of new control systems to meet client requirements.
