

# LIFTS & ACCESS

HOME • OFFICE • COMMERCIAL

The GBE Group provides a full range of electrical services to Newcastle, the Central Coast, and the Hunter region of NSW.

**Our qualified and experienced lift technicians provide a complete installation and maintenance service, for various types of lifts and access systems to suit your needs. All lift and access systems supplied by GB Lifts are fully compliant with the Australian Lift Code to ensure the safety of you and your family.**

## Residential Lifts

**GBE Group installs various high quality freestanding or customised residential lifts suited to your specific needs and space.**

We provide installation of Barduva, Tresa and Aussie Lifts systems to meet individual needs of each client, such as spacing, size, speed and even colours.

## Disability Access

**We help you to improve access on your premises and buildings for people with a disability.**

GB Lifts can provide you with a safe, easy to operate and cost-effective solution to improve accessibility in the home, office or commercial property.

## Stair Lifts

**Stair Lifts provide great accessibility for your home while maintaining the existing structure.**

When installed on the inside stairway path, your stairs remain accessible for your family and friends. You can save extra space at the top and bottom of the stairs with a parking bend.

## Installation

**GB Lifts offer quality installation by experienced lift engineers. All GB Lift installations comply with Australian Lift Codes.**

GB have been installing and maintaining lifts for over 25 years. With every lift installation, you are guaranteed the highest quality of workmanship.

## Maintenance & Service

**Every lift maintenance job is carried out by qualified and experienced technicians, providing quality assurance.**

If your lift requires maintenance, talk to us about our preventative and maintenance scheduling service. Our lift maintenance technicians service a large variety of lift brands on the market.
