LIFTS & ACCESS

Our qualified and experienced lift technicians provide a complete installation and maintenance service for various types of lifts and access systems to suit your needs. All lift and access systems supplied by GB Lifts are fully compliant with the Australian Lift Code to ensure the safety of you and your family.

Residential Lifts

GBE Group installs various high quality freestanding or customised residential lifts suited to your specific needs and space.

We provide installation of Barduva, Tresa and Aussie Lifts systems to meet individual needs of each client, such as spacing, size, speed and even colours.

■ Stair Lifts

Stair Lifts provide great accessibility for your home while maintaining the existing structure.

When installed on the inside stairway path, your stairs remain accessible for your family and friends. You can save extra space at the top and bottom of the stairs with a parking bend.

■ Installation

GB Lifts offer quality installation by experienced lift engineers. All GB Lift installations comply with Australian Lift Codes.

GB have been installing and maintaining lifts for over 25 years. With every lift installation, you are guaranteed the highest quality of workmanship.

■ Maintenance & Service

Every lift maintenance job is carried out by qualified and experienced technicians, providing quality assurance.

If your lift requires maintenance, talk to us about our preventative and maintenance scheduling service. Our lift maintenance technicians service a large variety of lift brands on the market.

AUTOMATION SYSTEMS

Our automation team deliver the most comprehensive range of home, office and commercial automation products on the market. The GBE Group are certified by Schneider/Clipsal, Avation, Savant, RTI Corporation Environexus, and Bluesound.

C-Bus Automation

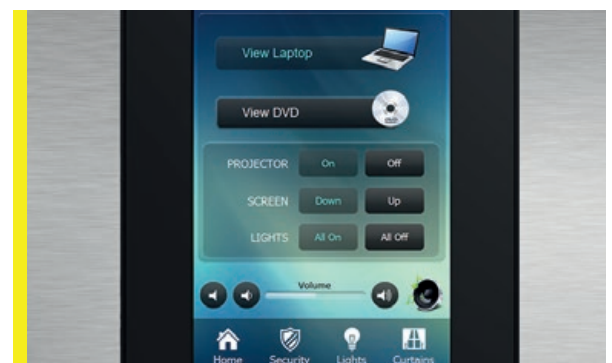

A C-Bus Control System is a centralised network used to control lighting and other electrical services.

A C-Bus Control System can be easily used to control virtually any type of electrical device. C-Bus is a microprocessor-based control and management system for commercial and domestic situations. It also gives you the ultimate flexibility in switching, scheduling and control - functions can be changed, added, removed, moved, and reprogrammed at any position on the network, at any time without any cumbersome hard-wiring.

RTI Commercial Automation Applications

Remote Technologies Incorporated (RTI) is a leading control systems manufacturer offering innovative, sophisticated, and user-friendly products for professionally installed electronic systems.

RTI's professional-grade control products are powerful enough to control systems of any size or scope. They're intuitive enough for any user to operate confidently. Because our systems are designed and manufactured to perform under the most demanding conditions, you can expect reliable performance every time.

Savant Automation

Savant Pro offers the unparalleled convenience of controlling your lighting, climate, entertainment, and security from a single, intuitive app.

Savant Pro delivers solutions for even the most unique homes, with controls for amenities such as pools, home theaters, and more. Savant has been in the world's most luxurious homes since 2005 - and GB Home Automation can help you experience it for yourself.

Savant IP Video & Audio

A Savant IP Video & Audio High-Performance Entertainment System delivers pristine pixel perfect video at the highest resolutions, and clean, clear audio from source to speaker.

Savant IP Video combines the latest proprietary technology to distribute exact uncompressed video with zero frame latency at the most commonly used 4K resolutions. Combined with simultaneous audio distribution over IP, Savant can provide a state-of-the-art entertainment setup for your home.

CCTV

CCTV Systems are great for home or business owners who are keen to keep a continuous eye on their property and any suspicious activity that may present itself around their neighbourhood.

From cost-effective solutions to advanced technology, we can customise a security camera system to suit your requirements. IP CCTV solutions offer exceptional quality and ease of installation.

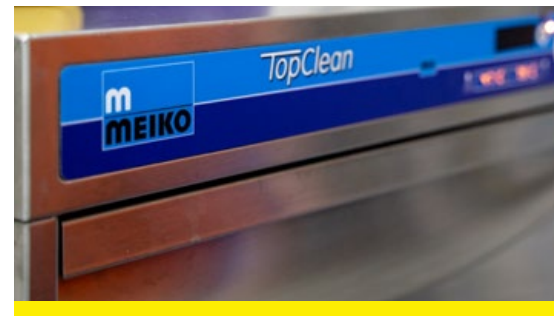

Health and Hygiene Equipment

GBE Group installs and maintains health and hygiene equipment including:

- *Sanitisers*
- *Disinfectors*
- *Dental Equipment*

The brands we service include Malmet, Ace, Rhima, Sanitech and Miele. We provide reactive service works and preventative maintenance plans ensuring optimal performance of your equipment. We offer prompt service by experienced technicians and value for money pricing.

With over twenty years of continuous operation and experience in the service industry, GBE Group will look after you.

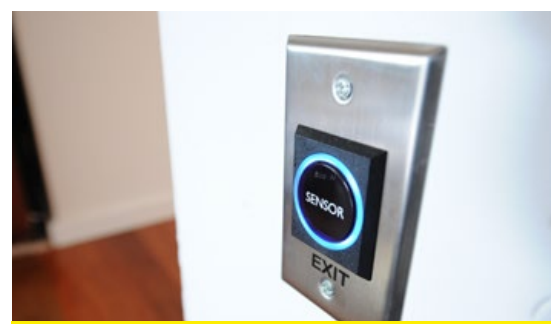

Assistive Technology for Disability, Accident and Aged Care Persons

GBE Group offers person-specific assessment appointments to provide tailored solutions using the latest in available technology.

- *We offer person-centred solutions*
- *We assess the persons functional capacity relating to automation technology*
- *We provide home automation solutions consistent with the persons goal's and functional capacity.*

GBE Group is an NDIS Registered Provider, we work with accident care victims through ICare, Vision Australia and Paraquad NSW.
